

ARC RECLAMATION

SPECIALIST IN DOORS, STAINED GLASS, FIREPLACES AND FLOORS - HOME COUNTIES

Furniture

The Collection

Quite often it is a striking piece of furniture that can set a room apart. We use our skills and expertise in traditional design and a sympathy with the surroundings into which our furniture goes.

If you are looking for that striking piece with a special place in mind having our craftsmen produce a sumptuous dining table full of depth of colour and marbled patina will certainly impress your guests. We work closely with our clients to incorporate style, size, colour, choice of material and finish into all our furniture, whether classic or contemporary, free standing or fully fitted.

Classic and Contemporary Designs

We create a range of furniture using reclaimed materials including elm, oak, ash, beech, sycamore, teak, yew, cherry, chestnut and pitch pine.

Classic or contemporary designs are beautifully enhanced by the choicest of these timbers and include;

Dining, coffee and occasional tables
Kitchen units and work tops
Vanity units
Corner cupboards
Display units
Bookcases and shelving
Beds

Traditional Craftsmanship

Using reclaimed materials combined with the tradition and technique of design and construction from a bygone era we believe that we have brought Arts and Crafts principles to the modern age.

Using a range of quality stains and finishes, recipes and blends which are a secret to ourselves, we bring out the deep colour and patina that glorifies antique woods.

With the due care and painstaking attention that our furniture deserves our craftsmen ensure each piece is completed to an unrivalled standard.

We hold a large stock of select woods in stock including oak, elm, yew and other timbers. We design furniture to commission but have a portfolio of previous pieces that can form the basis of your project and we display some examples at our Petersfield showroom. Call us on 01730 231995 to arrange an appointment or visit our web site at www.arcreclamation.com for further details
