SPECIALIST IN DOORS, STAINED GLASS, FIREPLACES AND FLOORS - HOME COUNTIES

Period Features

The Collection

Arc Reclamation is a world full of period features where you can discover architectural gems to complete your restoration project.

Just imagine the delight in discovering a wonderful pane of art deco stained glass to complete a restored oak country cottage door. Unearth a glorious art nouveau fireplace with tiled inserts to form the soul of your living room.

You can even commission a bespoke dining table made from 18th Century Georgian Elm as the centre piece of your dining room. The possibilities are endless.

The World of Architectural Reclamation & Restoration

We work in a weird and wondrous world, full of surprises, that often delights and inspires ourselves and our clients.

A place where we welcome your ideas, add in the raw ingredients and with a hint of creativity turn a concept into a recovered, restored period feature of stunning beauty and authenticity. Often we surprise clients and deliver a striking piece that they believed was not possible.

We thrive on the challenges that our clients bring us.

For example your project might consist of;

Matching windows and doors needed for a new extension to the features of the original house

Restoring original long lost features to your property

Cheering up existing doors and windows with stained glass panels

Creating hand made kitchen units to give that real authentic feel

Fitting sumptuous antique flooring throughout your home giving a wonderful flow from room to room

Installing an elegant marble fireplace to provide a focal point

We are more than happy to discuss your plans and welcome you to visit our workshop and show room in Petersfield, Hampshire, where you will find a wealth of hidden treasures that can only inspire you.

With over 1000 doors in stock ranging from 18th C country cottage to Victorian, **Hundreds of Antique Fireplaces** and Fire Surrounds, **Miles of Wood Flooring** in select timbers and **Stunning Stained Glass** we have a comprehensive collection to help you complete your restoration project.
